

2009 PMI Codes, Standards and Green Workshop

This two-day workshop will offer an overview of the codes, standards, regulations and programs that affect the plumbing products industry.

The workshop will be presented by PMI's Technical Director, Shawn Martin.

This workshop will answer such questions as:

- ◆ What is the difference between codes, standards and regulations?
- ◆ What are the key codes and standards and how are they created?
- ◆ How and why are products certified to standards like NSF 61?
- ◆ How can I read and use codes and standards?
- ◆ What are the differences between the various water conservation and efficiency and green programs like LEED, WaterSense, Green Globes and others?

Join Us! July 28-29, 2009

PMI Headquarters, Rolling Meadows, IL

Offered by the
Plumbing Manufacturers Institute
